out that ~~there is only one way left~~ for the Namibian people to regain their country from Pretoria's captivity, and that is through armed struggle. The aborigines of Namibia have intensified and strengthened the armed struggle to regain Namibia, the land of their birthright.

Under the leadership of SWAPO, the aborigines want to see their land free no matter how much blood is shed. SWAPO enjoys the support of all the aboriginal inhabitants of Namibia. Both the United Nations and the OAU regard SWAPO as the sole representative of the people of Namibia. There is no force on earth which will prevent SWAPO and the people of Namibia from accomplishing their declared goal, true independence for Namibia.

yes, indeed, Pretoria her

fellow travelers, western countries, regard Namibia as the mother lode for economic wealth, and delay the ultimate day of independence through prolonged warfare. In addition, Pretoria emboldened by western support, continues to launch military sorties against her neighboring states. Taken as whole the politics of Pretoria are that of delaying independence for Namibia and continued exploitation of Namibia's resources, with Pretoria enjoying unfettered political control of the territory.

The Namibian people are determined to regain their country in order to enjoy its economic resources in peace. They are being assisted in their efforts by various countries of the world, including the Soviet Union. Recently, the Soviet Union sent a telegram to the UN Council for Namibia, emphasizing the necessity and urgency of supporting the Namibian people's claims for their motherland. ((indistinct))
